

TECHNICAL DATASHEET

FM4/VISION FULL FACE MASK

DESCRIPTION

FM4/VISION is a full facemask providing the highest levels of respiratory protection. A novel hose connection brings the hose up over the wearer's shoulder, keeping the work area clear.

The mask has an ultra comfortable silicone face seal and offers a virtually unrestricted field of vision.

- Non dermatitic silicone construction minimises risk of skin irritation
- Reverted edge face seal ensuring good fit and increased safety
- Provides impact protection, allowing use in environments where both respiratory and face protection is required
- High efficiency speech diaphragm allows wearer to communicate clearly
- Three sizes available

FM4/VISION is approved for respiratory protection when used with SPIRIT, Duraflow, Tornado and Proflow powered air systems.

APPROVALS

CE certified to EN12942:2008 TM3 and AS/NZS1716-P3.

TECHNICAL SPECIFICATIONS

Respiratory Protection:	Proflow Tornado SPIRIT Duraflow	EN 12942:2008 TM3 and AS/NZS 1716-P3 EN 12942:2008 TM3 and AS/NZS 1716-P3 EN 12942:2008 TM3 and AS/NZS 1716-P3 EN 12942:2008 TM3 and AS/NZS 1716-P3
Minimum design flow rate:	Proflow Tornado SPIRIT Duraflow	120 l/min 140 l/min 160 l/min 160 l/min
Eye and Face Protection	Clause 8.11 Clause 6.3.2.4.3 (EN166)	EN 136 EN 12942
Visor material:	Polycarbonate with silicone coating	
Effective weight of mask on head:	630g	
Noise level:	<65 dB(A)	
Operating Temperature Limits:	-10°C to +50°C	
Face Seal Material	Non dermatitic Silicone
